COMPANY OVERVIEW

Brightline Solutions is an Oklahoma-based small business providing end-to-end software engineering, IT, cybersecurity, and AI-related services for government clients.

Our mission is to bring enterprise-level quality to government clients through streamlined, transparent, and efficient technology delivery.

CORE CAPABILITIES

Software Engineering & Development (541511, 541512):

End-to-end software design, development, and modernization of government systems.

Cloud Architecture & DevOps (541519):

Design and automation of scalable cloud infrastructure across major platforms.

Cybersecurity & Penetration Testing (541519, 541690):

Vulnerability assessments, secure coding reviews, and threat modeling.

Artificial Intelligence & Data Science (541511, 518210):

AI workflow integration, LLM deployment, dataset quality assurance, and factor analysis.

Data Visualization & Analytics (518210):

Dashboards and automation for decision-support.

Software Engineering Consulting & Training (611420):

Workforce upskilling and Agile/SAFe process coaching.

DIFFERENTIATORS

- **Proven Enterprise-Scale Experience:** Technical Leadership and delivery experience with complex, high-throughput systems supporting millions of users at Amazon.
- **Extensive Expert Network:** Access to a broad network of senior engineers and specialists across disciplines, enabling rapid scaling and specialized expertise for complex projects.
- **Operational Efficiency Focus:** Proven ability to reduce maintenance load and operational overhead through automation and streamlined design.

PAST PERFORMANCE

Founder:

- **Deep Technical Expertise:** 15+ years in software engineering (Since 2009)

Scope of Work:

- Developed over 20 applications for complex domains like third-party seller management and grocery delivery operations at Amazon.
- Led initiatives for high-availability web and mobile systems serving millions of users.
